

## MEC 800

The **MEC 800** is a machine designed for large volumes, its characteristics make it possible to manufacture products such as pellets, compost, dried fruit, rice, from 5 to 25 Kg.

TECHNICAL SPECIFICATION	MEC 800
Maximum bag's width	450 mm
Maximum bag's length	700 mm
Maximum spool's width	980 mm
Maximum spool's diameter	300 mm
Packaging material	polyethylene coextruded coupled
Speed production*	6/8 packages per minute *
Compressed air	6,5 bar
Electrical	400 vac trifase+N+T
Machine dimensions	1800x1600 H 2100mm
Weight	750 Kg

*\* it depends from feed system and kind of product*
